why **ELECTRONIC HID?**

1. Greatly improves lumen maintenance & increases lamp lifetime – use lower wattage lamps and achieve equal maintained lumens!

2. Up to 65% savings vs. conventional Magnetic HID without sacrificing maintained light levels!

3. Auto Profile Option* automatically dims during off hours for additional savings without any control wires, sensors or any additional cost!

4. 0-10V analog and advanced digital dimming ability also included!

5. Built-in protection against harmful electrical surges.

6. We program the ballasts for job-specific wattage and dimming requirements.

AVAILABLE WATTAGES:

PSMH: 175/200/250/320/350/400/450

HPS: 100/150/250/400

**DURAGUARD
STOCKS COMPATIBLE
PULSE START LAMPS!**

WHAT IS AUTO PROFILE?

ELECTRONIC HID

why **Auto Profile?**

Dimming Without Additional Controls!

**Let us program
your ballasts to
take advantage
of the built-in
Auto Profile
capability for
even more
energy (and
dollar) savings!**

1. Automatically dims and increases to desired levels during off hours.
YOU SPECIFY THE TIMES AND LEVELS!

2. Automatically adjusts for changing daylight hours.
NO MORE REPROGRAMMING!

3. Fixtures dim with **NO** external controller and **NO ADDITIONAL COST!**

4. Perfect for parking lots, parking garages, parks, and areas where security lighting is needed but full brightness is not required during off-hours.
